Portable, digital pH / Redox and conductivity measuring devices (202710)

- Min. and max. value memory
- Hold function
- Adjustable automatic switch-off
- Easy-to-read, 2-line LC display
- Supply from a 9 V block battery
- Display of battery condition
- Compact design

Order details

			(1)	**Basic type**
		202710/20		Hand-held meter for pH, redox, temperature
		202710/30		Conductivity hand-held meter with conductivity cell
			(2)	**Extra codes**
X	X	000		Without extra code
X		070		Incl. case with calibration solutions pH 4,00 and pH 7,00
	X	071		Including case

Stock versions

Order code	Basic type	Part no.
202710/20/000	Hand-held meter for pH, redox, temperature	00453200
202710/20/070	Hand-held meter for pH, redox, temperature	00460986
202710/30/000	Conductivity hand-held meter with conductivity cell	00454356
-	00648463	

Accessories

Description	Part no.
Immersion temperature probe 202710 Version August 2015	00648463

Accessories see price sheet:

- JUMO ecoLine and JUMO BlackLine pH Combination Electrodes (201005)
- JUMO ecoLine / JUMO BlackLine - Redox Combination Electrodes (201010)
- Laboratory pH single-rod electrodes (201030)
- JUMO Laboratory Redox Combination Electrodes (201035)
- JUMO Technical Buffer / Cleaning Solutions (202950)
